YOU WILL LEARN:

The most reliable and easiest way to start making HUGE profits in the market.

The exact charting points to enter and exit your trades ...and why they're so deadly accurate.

How to read candlesticks like a pro in minutes... you'll never have to memorize another candlestick pattern again!

How to tell whether the market is going to reverse, or is only experiencing a temporary correction...

The 'big picture' of how money actually gets made in the currency market, without all the hype about the latest fads. Your future success depends on understanding this.

The right framework for setting up a trading methodology - and "making money" isn't all there is to it...

<http://www.forexresearcher.com>

The 4 techniques that enable you to understand market behavior...and how to do that with less effort than you might think.

How to tell when the market buyers or sellers are overwhelming the other side... even before it happens.

The ONE 'trick' candle pattern that fools unsuspecting traders into placing low win-probability trades... how to identify and avoid it at all costs.

The biggest and most common mistake made by retail traders when trading with candlesticks... what you must do to side-step this money trap set by the institutional traders.

The ONE candlestick type that's absolutely vital to your success (if you don't understand this, making money in Forex will be like running uphill).

How two seemingly identical candlesticks can tell you completely different stories about the market... traders who don't understand this concept will be tricked again and again without knowing why!

The #1 candlestick information to trade with, and why it's your secret weapon in your quest for wealth...

AND MUCH MORE!
