Here are some frequently asked questions answered about Forex [Derivative 2.0](#)

What is Forex Derivative 2.0?

Forex Derivative 2.0 is an Expert Advisor designed to run on Metatrader 4 trading platform. So in order to run it properly you are going to need the latest version of Metatrader 4. If you don't already have it installed you can download it for free at <http://www.metaquotes.net/downloads>.

What is an Expert Advisor?

Expert Advisor is an automated trading system written in mql4 programming language. All trading decisions are taken over automatically by the EA based on predefined set of rules.

Which currencies can I trade with Forex Derivative 2.0?

You can trade four major currency pairs such as EUR/USD, GBP/USD, USD/CAD and AUD/USD.

What timeframe do I choose?

Forex Derivative 2.0 uses information from several timeframes to calculate exit/entry points. The lowest one is M1. So in order for Forex Derivative 2.0 to run properly it needs to be put on a M1 chart. That applies for all currencies.

Will I be required to buy any additional products from your company in order to be able to implement your system?

Absolutely not. We are not affiliated in any way with any software provider, brokerage house or any other investment services firm.

What do I need to run Forex Derivative 2.0?

You need to install the latest version of Metatrader 4 Trading platform on your PC and you need a reliable Internet connection.

Are there any free updates?

Yes, all our loyal customers will be able to download every new version free of charge.

How much money do I need to start trading?

Depending on the broker, you can start trading with an amount as low as \$100.

Can I test your system on a demo account?

Yes, you can.

Can I run your Expert Advisor on different currency pairs at the same time?

Yes. You can just need to attach the EA to different charts. By doing so you will get more trades and a higher revenue.

What if my brokerage uses 5 digit price quotes? Will Forex Derivative 2.0 still work?

Yes, it will work fine, as Forex Derivative 2.0 is designed to handle this case.

My MetaTrader crashes when I try to attach Forex Derivative 2.0?

You need to download and to install the newest version of Metatrader.

I live in Asia, can I still use your software?

All you need is Internet connection. Therefore you may live in France, UK, USA, Japan, Singapore, Canada, Australia, Kuwait, ... it really doesn't matter where you live...

Do I need any specific academic background in order to be successful?

Not at all. Successful forex traders come from many different professions. Very often, people who are very successful at school or at their businesses wrongly believe that their success will be automatically translated at forex trading.

What kind of Internet connection do I need?

You will need a reliable internet connection, I would recommend you to use either Cable or DSL Internet service if it is available in your area.

What happens if my computer crashes or Internet connection is lost while Expert Advisor is running?

Forex Derivative 2.0 will run again when connection is restored. In the meantime your positions are protected by stop loss.

Do I need to constantly monitor the software?

No, you don't. Expert Advisor does the trading for you.

I don't have any experience in trading forex. Is the Forex Derivative 2.0 suitable for me?

Absolutely. All what you need to do is to install Forex Derivative 2.0 and let it run in Metatrader 4. How to do it is explained in detail in the user guide.

Which brokerage can I use?

Any brokerage that supports Metatrader trading platform.

Is there a stop loss integrated in the system?

Forex Derivative 2.0 exit strategy consists of a much more than a simple stop loss. But for protection purposes, specially when your Internet connection fails, every opened position has a stop loss.

Can I use Forex Derivative 2.0 on a demo or on a real account?

You can use Forex Derivative 2.0 both on a demo and a real account.

As you can see, Forex Derivative 2.0 provides a lot of value and is a well thought out program. For complete details about this new Forex trading tool that is making such a buzz, please visit the Forex Derivative 2.0 website.
